

The 2019 TSC Fall Cruise from San Carlos to San Pedro Bay

The participants of the 2019 fall cruise left San Carlos the morning of Tuesday October 22 for San Pedro Bay. The wind from the North West encouraged most of the group to motor sail most of the way. By late afternoon six boats had made the 13-mile trip to San Pedro Bay.

Part of the TSC anchored in San Pedro Bay

Papillion hosted a potluck dinner the first evening, that was well attended. Early the next morning Second Sun sailed out to San Pedro Island for a nature tour. Hundreds of sea lions and cormorants were observed. The island has steep rock sides that extend deep into the water. The deep water allows boats to motor very close to the island for a great view of the wildlife.

The next day the club cleaned the beach. We dug a burn pit, collected and burned over 30 large trash bags of man-made litter and buried the ashes the next day. Photos show the before and after beach cleanup.

The TSC detectives

Later that day we played a mystery game on the beach. The scene of the activity was easily identified near the center of the beach. The twelve detectives gathered clues and proposed scenarios of the mysterious activity. The means the perpetrator used to leave the scene drew a lively discussion.

All had a great time. After a couple-of-days and some fishing the Club returned to San Carlos
